Summary

Software Development student at CodeStack Academy with experience building modern web applications using JavaScript, TypeScript, React, Next.js, and C# with ASP.NET APIs. Skilled in developing full-stack applications, integrating REST APIs, and deploying projects using Azure and Vercel. Proven reliability and strong work ethic developed through fast paced production and logistics roles at Amazon. Seeking opportunities as a Junior Software Developer, Frontend Developer, FullStack Developer, or Software Engineer Intern.

Technical Skills

Languages	JavaScript, TypeScript, C#
Frontend	React, Next.js, TailwindCSS, Bootstrap, Responsive Design
Backend	ASP.NET Core Web API, REST APIs
Database	SQL
Tools & Platforms	Git, GitHub, Azure, Vercel

Projects

Asking Question API — Built a REST API that accepts user input and returns formatted responses. Tech: C#, ASP.NET Core.

Greater Than / Less Than API — Created an API that compares two numbers and returns descriptive results. Tech: C#, ASP.NET Core.

MadLib Generator — Developed an API that dynamically generates MadLib stories from user input. Tech: C#, ASP.NET Core.

Magic 8 Ball API — Implemented an API that returns randomized responses to user questions. Tech: C#, ASP.NET Core.

Professional Experience

Amazon — Warehouse Associate (2023 – Present)

- Operate man lift equipment to transport materials to production areas.
 - Retrieve and stage inventory to maintain production workflow efficiency.
 - Pack and prepare items for shipment while maintaining productivity and accuracy standards.
- Work within a fast paced logistics environment requiring time management and attention to detail.

Burger King — Crew Member (~1.5 – 2 Years)

- Delivered customer service in a high volume restaurant environment.
- Operated POS systems and handled cash transactions.
- Collaborated with team members to maintain efficient operations.
- Followed food safety and cleanliness standards.

Education

CodeStack Academy — Software Development Program

September 2025 – June 2026

Focus: FullStack Development, REST APIs, Cloud Deployment, Modern JavaScript Frameworks
